

Dear Customer

I hope you are all keeping and trading well as we are entering another period of worldwide instability.

I am sure you will have seen in the press that due to the events in the Middle East with the Iran war, fuel prices have significantly increased in the last week. This unpredictable increase directly affects our services and unfortunately is not a cost we can absorb.

We have a variable Fuel & EZ surcharge in place to fairly navigate through this time. The fuel element was last reviewed on 31 August 2025 ahead of annual rate reviews and at this time fuel was 107.48ppl. On 9 March 2026 we have been advised our fuel price is 128.74ppl. We have been warned by our suppliers that rates are very volatile and may be adjusted daily.

I am writing to inform you that from 9th March 2026 your fuel surcharge will increase by 4.95%. We will monitor the levels closely and will be adding a section to the Customer Area of our website that will display the increase from current levels.

We'd like to thank you for your continued business and support. Price Transport is proud to offer a premium logistics service and are committed to building and enhancing customer relationships that are based on our values of professionalism, flexibility, innovation and honesty.

If you have any concerns or queries, please contact Andy Pallister or myself.

Yours Sincerely

A handwritten signature in black ink, appearing to read 'Ali Hack', with a stylized flourish at the end.
